ABOUT SAHRDAYA

Sahrdaya College of Engineering & Technology is one of the most prestigious and preferred institution in Kerala. The environment in Sahrdaya paves way for an ideal learning ambience providing exposure to different cultures and perspectives for fruitful and meaningful interactions. The inspired mindset of every Sahrdayan helps to provide quality education and include human values in students to embrace new challenges and seize new opportunities.

THEORY OF COMPUTATION

ORGANISED BY:

COMPUTER SCIENCE DEPARTMENT,
SAHRDAYA COLLEGE OF ENGINEERING & TECHNOLOGY,
KODAKARA

DATE : 28TH NOVEMBER - 2ND DECEMBER, 2016

www.sahrdaya.ac.in

INTRODUCTION

Theory of computation deals with how efficiently problem can be solved using computational models. Modern theory of computation entails automata theory, computability theory and complexity theory. This is the backbone of a number of areas in computer engineering- compiler Construction, language processing and operating system design. Nowadays it is even used in the field of image processing for symbolic pattern recognition. It also covers different programming paradigms such as procedural programming, object oriented programming and functional programming.

RESOURCE PERSON

Mr. Anilkumar S is working as an Assistant Professor in Department of Computer Science and Engineering at Government Engineering College Painavu, Idukki. He has graduated (M Tech) from NIT Calicut and took his B.Tech from Cochin University College of Engineering (CUSAT). At present he is doing PhD in Department of Computer Science from IIT. His areas of interest include Theoretical Computer Science, Real and Complex analysis and Digital Image Processing.

TOPIC COVERAGE

General Automata Model, Grammar, Acceptors and Transducers, Type 0-3 Machines, Languages and corresponding grammars, Parikh's Theorem, Rice's Theorem

WHO SHOULD ATTEND ?

This FDP will be useful for development of teachers, researchers and trainers working in universities, colleges, staff training institutes which teach computer science and allied subjects. UG/PG students from various engineering colleges preparing for competitive examinations can also participate. A certificate of participation shall be provided to all the participants.

PROGRAM OBJECTIVE

To acquire the fundamentals of computation theory, so that the participants are adapted towards the new application oriented curriculum.

REGISTRATION FEE
