Had you filled the Placement Registration google form and Career Questionnaire shared in the last semester. No dues will be cleared only completing all from the HR & Placement Department.

245 responses

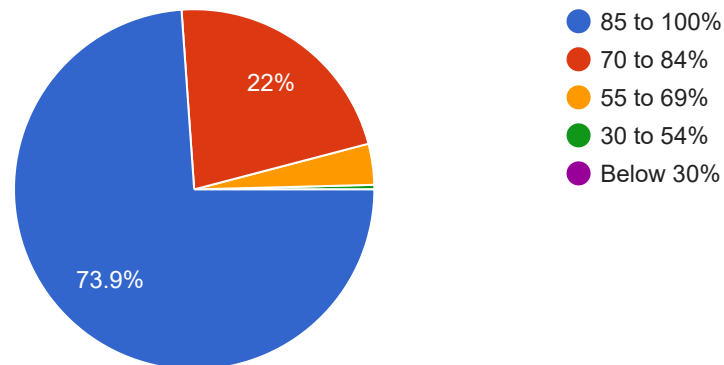

Following are questions for online student satisfaction survey regarding teaching learning process.

1. How much of the syllabus was covered in the class?

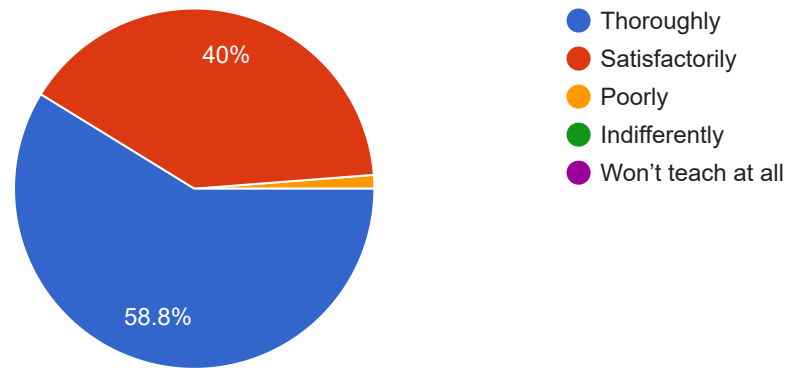

245 responses

2. How well did the teachers prepare for the classes?

 Copy

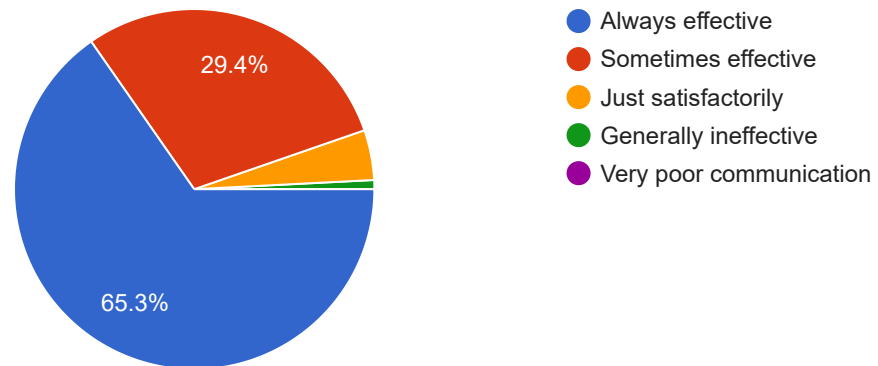

245 responses

3. How well were the teachers able to communicate?

 Copy

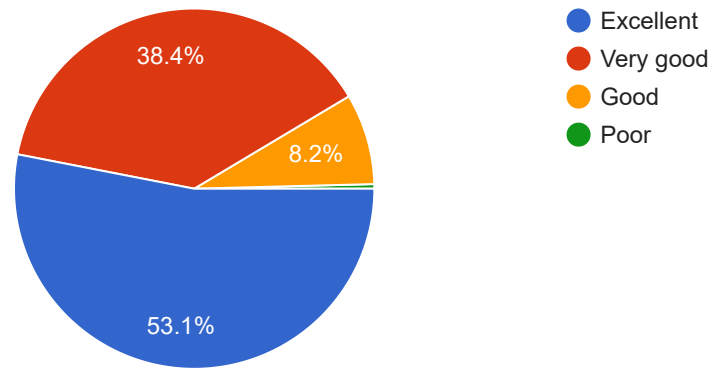

245 responses

4. The teacher's approach to teaching can best be described as

 Copy

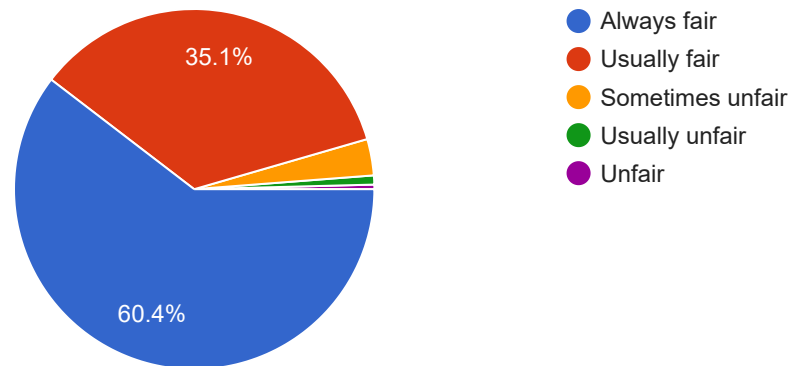

245 responses

5. Fairness of the internal evaluation process by the teachers.

 Copy

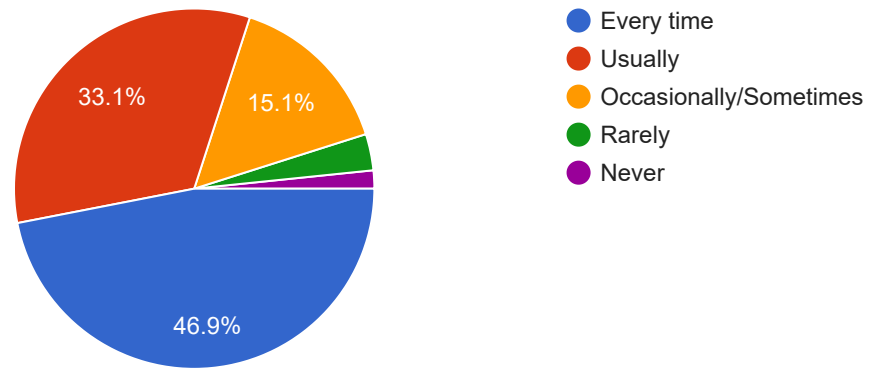

245 responses

6. Was your performance in assignments discussed with you?

 Copy

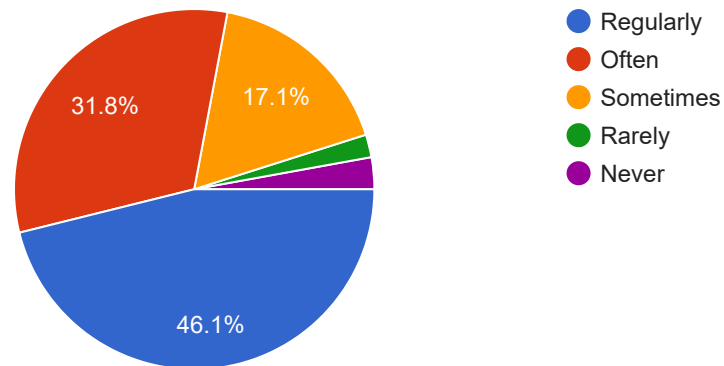

245 responses

7. The institute takes active interest in promoting internship, student exchange, field visit opportunities for students.

 Copy

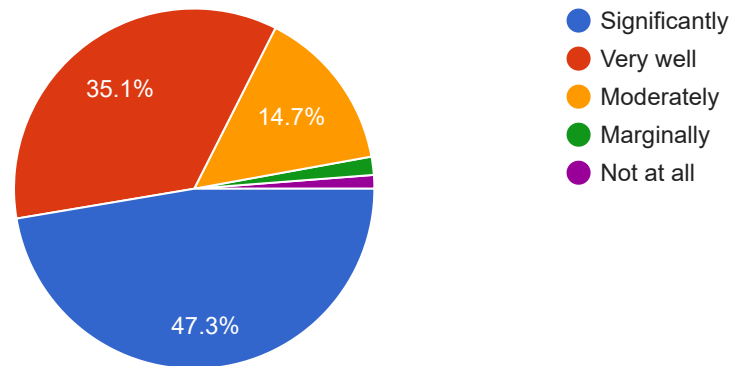

245 responses

8. The teaching and mentoring process in your institution facilitates you in cognitive, social and emotional growth

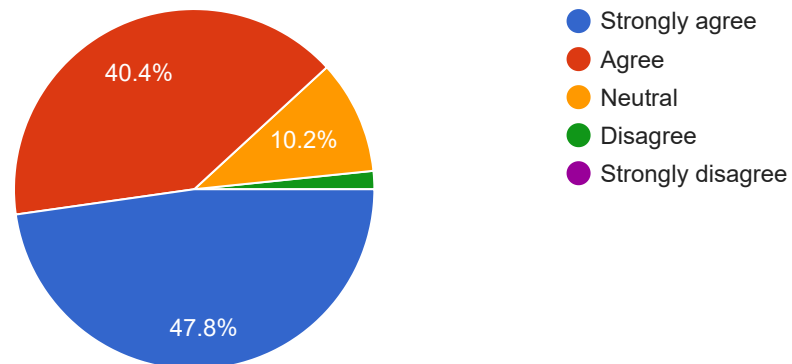

245 responses

9. The institution provides multiple opportunities to learn and grow.

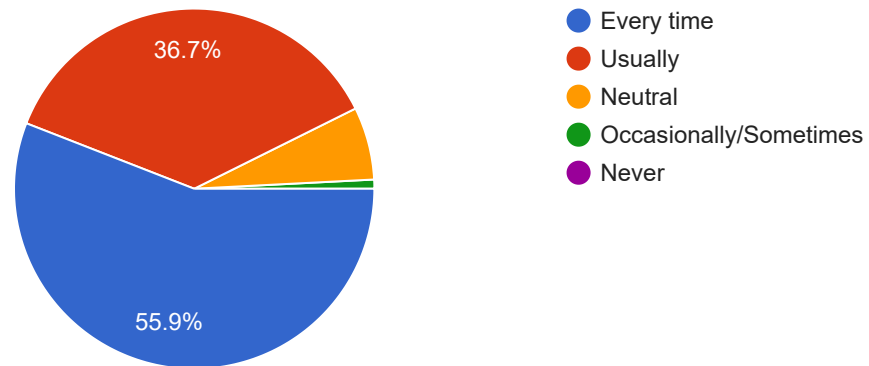

245 responses

10. Teachers inform you about your expected competencies, course outcomes and programme outcomes.

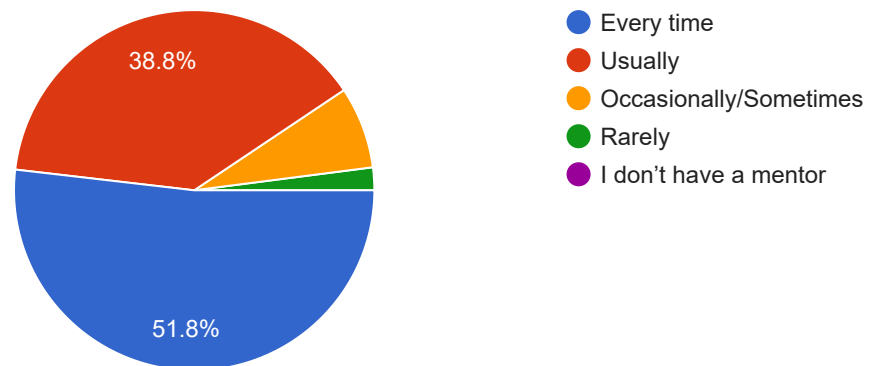

245 responses

11. Your mentor does a necessary follow-up with an assigned task to you.

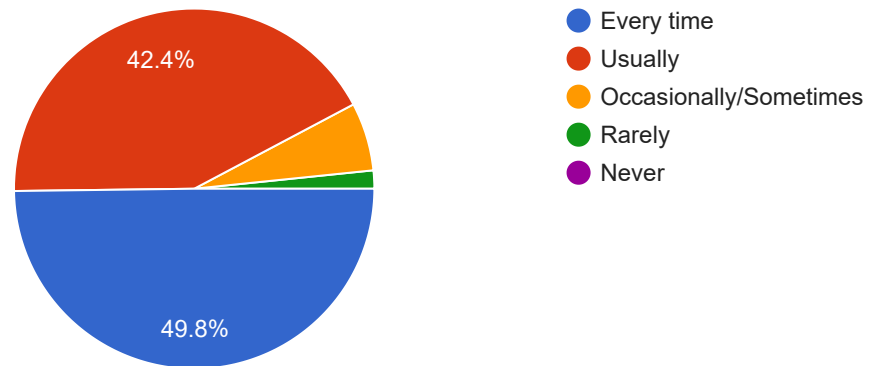

245 responses

12. The teachers illustrate the concepts through examples and applications.

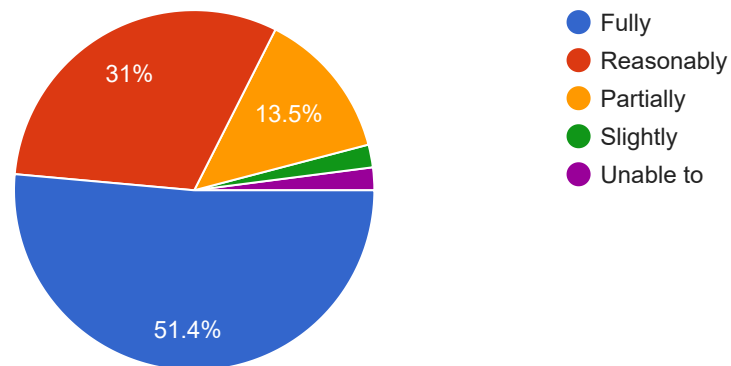

245 responses

13. The teachers identify your strengths and encourage you with providing right level of challenges.

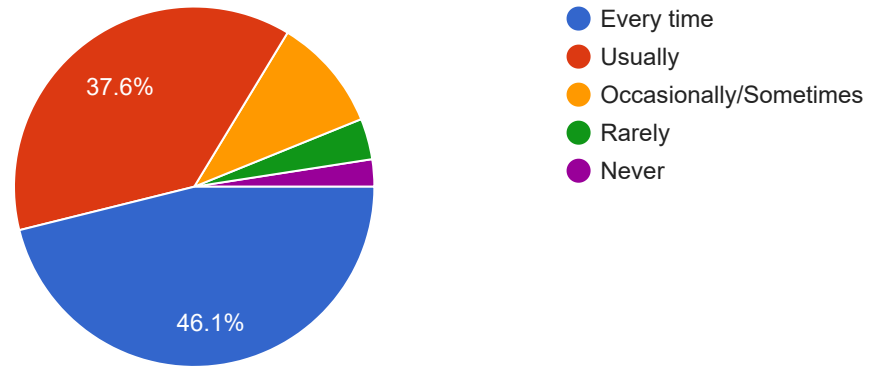

245 responses

14. Teachers are able to identify your weaknesses and help you to overcome them.

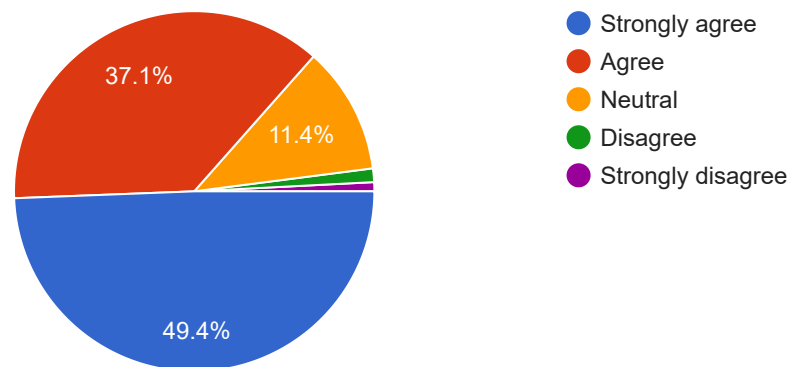

245 responses

15. The institution makes effort to engage students in the monitoring, review and continuous quality improvement of the teaching learning process.

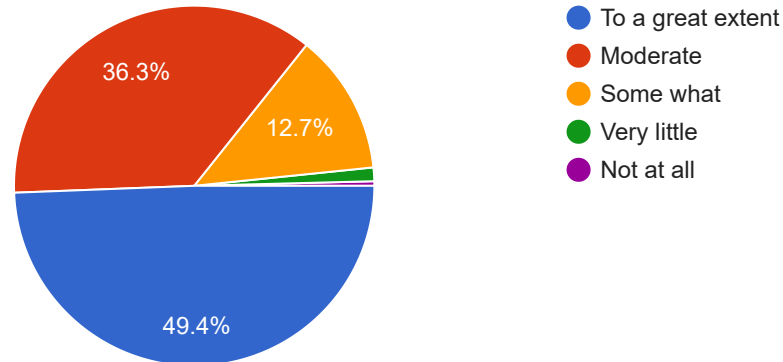

245 responses

16. The institute/ teachers use student centric methods, such as experiential learning, participative learning and problem solving methodologies for enhancing learning experiences.

[Copy](#)

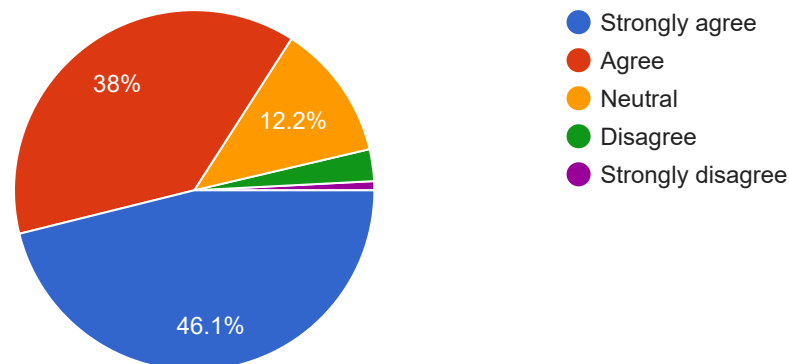

245 responses

17. Teachers encourage you to participate in extracurricular activities.

[Copy](#)

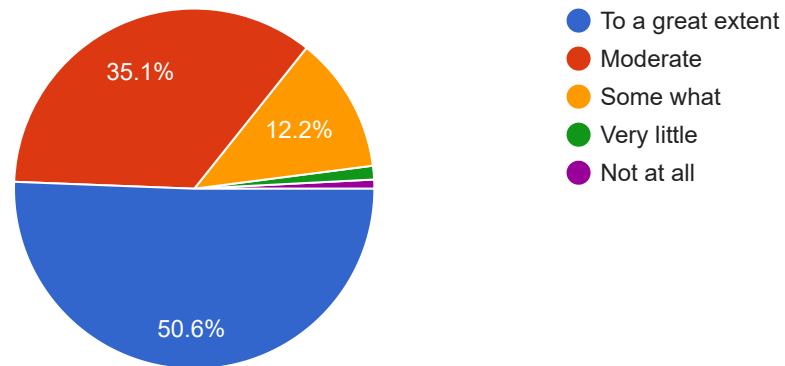

245 responses

18. Efforts are made by the institute/ teachers to inculcate soft skills, life skills and employability skills to make you ready for the world of work.

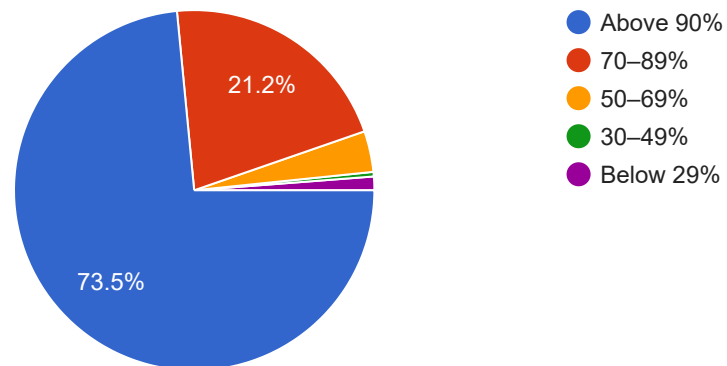

245 responses

19. What percentage of teachers use ICT tools such as LCD projector, Multimedia, etc. while teaching.

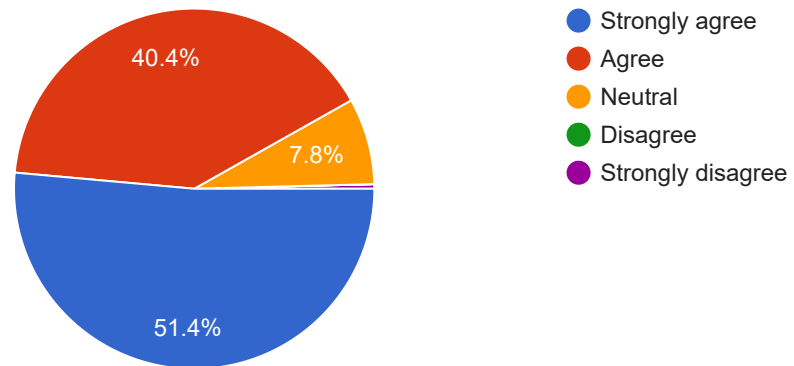

245 responses

20. The overall quality of teaching-learning process in your institute is very good

245 responses

21. Give three observation / suggestions to improve the overall teaching – learning experience in your institution.

245 responses

Nil

.

None

.

Good

Nothing

-

Nothing

Nil

None

nil

..

Practical exposure

No suggestions

Studying in textbooks and avoiding ppt

More practicals

Practical exposure, internship and industrial visit

More practicals and interactive classes

More classes

If the teachers were more involved with the student beyond fulfilling academic duties, it would enhance the experience of students.

Better time management, creative assignments rather than the conventional copy-from-google kind and asking for student feedback in class more often rather than linways polls.

NA

Internship

. Make students to think more

Teachers need to help more in their project

more practical exposure and to provide better knowledge about the course other than just theory study

1. Pratical application of what students are studied

Include more practical/hands-on sessions compared to exsisting ones.

Nothing much

–

All were good

Hands on experience and more industry visits

New strategies, More live demos, Trainings

More practical sessions, Applications of theory sessions, Real life utilisation of course outcomes

Nothing specific

- More practical exposure.
- Promote more activity centric teaching methods.

Try to be more interactive to students.

Satisfaction

Industrial visit, more of extra curricular activities, etc.

Good learning experience

more activities, no dull class topics, no dull classes

More seminar and project works should be given

More practical oriented

None.

Nil.

1) Better to provide more hands on experiences in modern technologies. 2) Industrial visits/ exposure will be more helpful. 3) Seminar/ presentations in a professional way will be helpful.

1. Students shouldn't be overloaded with work.
2. More activities should be included.
3. More events or programs should be conducted in the college.

Be friendly with students. Campus itself can't bring happiness. Please entertain students with some type of cultural activities and some extracurricular activities

Making Internal under is not a motivational thing. Try to understand that.

We are studying ourselves for the semester exam from YouTube. No support from some faculties.

Application oriented learning

Seminars

Projects

More field trips and practicals

follow the same routine

1. provide necessary materials at the beginning of semester
2. Proper involvement of guides to improve project
3. More communication by the mentor

1) More hands on experiences will be helpful. 2) Industrial exposures will be more helpful in learning. 3) Provide basic knowledge on lab scale equipment.

Core oriented learning

Have better understanding of the topic.
Check and revert to Students regarding their work.
Proper , organized referral material.

Covering the syllabus at the earliest.

need much more facilities in lab,since most of the machines are not working

More practical exposure of each course

industrial visit,more interaction with core company people,engane more group oriented activities among students

seminars

Inculcation of technology

Dont give extra importance for assignments, Provide more practical knowledge

As civil engineers we don't have any kind of practical exposure, we are passing out without knowing the prize of a bag of cement.We are not ready to build buildings as civil engineers as we don't have any practical knowledge.We don't have any site visits

As a civil engineer, we have very less practical exposure and knowledge as we are given more if theory classes and not even a proper site visit. Currently software learning is something important which is also very less in our syllabus

Provide materials

Debate, industrial visit and projects

.

1. More emphasis on skills - technical, aptitude, language etc.
2. More hands on trainings, technical talks.
3. Learning from class itself, like it will be better if there was an arrangement to learn whatever teacher taught from class itself.
4. Making lecture videos may help students, let it be at the time of exams or may be some students find it difficult to understand.
5. Give complete notes as printouts

More activities related to the topics

Field work

More practicals

Internship, class discussion

Software tools, programming sessions,

More importance should be given to practical exposure than theory.

More practical exposure.

Provide more practical exploration
Conduct technical event in college

Industrial visit, activities, quiz

IV

Assignments should be made more practical than just theories

more nptel courses,outside exposure, industrial visits

MORE HANDS-ON TRAINING, MAYBE A FEW SKILLS THAT A STUDENT IN THIS GENERATION SHOULD ANYWAYS HAVE (LIKE LEARNING HOW TO USE WORD AND EXCEL, OR MAYBE ONE COMPUTER LANGUAGE), MORE READING (LIKE JOURNALS)

Practical session

Give more practical activity of subjects problems that students does not understand.

More library reference,seminars and group discussions

..

More practical teaching needed.

No suggestions.

No suggestions

Visit industries, more practical exposure, make classes more fun

More interaction with students

Everything is good

Be fair, betterment of discussion

No suggestion

*More exposure to corresponding course oriented industries

* To provide support on practical skills on machines apart from the theory classes.

Moreover from theory classes can give more practical sessions.

More Clinical exposure, practical sessions and viva

Exams, practicals, etc

Practical Exposure

1. previous year question paper based learning.
2. more practical exposure.
3. give more hand on training session.

Nothing

Environmental Engineering

C programming

Microbiology, Genetic Engineering

Data structures

Everything

..

Environmental engineering

Graphics

Good

Computer Programming

Engineering Graphics

DC machine

Power System Analysis

Secure communication

Microbiology, Genetic engineering, Cellular and molecular biology

Advanced Control Theory

Environmental Engineering

C++, it is because of the teacher who handled the course.

OOPS with Java, ICPS(Python) and Computer Programming(C). I like coding subjects.

NA

Elective

Technical

Chemical engineering

almost all

Calculus

nil

Global Elective

SA, DSS, DCS

These are analysis and design subjects , I like these type of subject which include theory as well as problems

Control system related papers. I personally enjoy mathematical papers.

All are equally good

–

DC machines and Transformer

I liked every programs

Management, Ergonomics, Biomechanics, Maths

TOC

Global elective

Related to electronics since that is my core.

Calculus, Differential equations, Engineering graphics

Embedded system, LACA, data structure

Ppt

Sem

Structural Analysis 1&2

This subject was handled very well and it was very engaging.

Drawing

Genetics, because it was having very much exciting topics in it.

Power Generation Transmission and Protection

energy management, even though mam give permission to sleep, none actually sleeps during class

Distributed Generation and Smart Grid

All the biomedical courses were interesting

VLSI, since it deals with process of combining millions of transistors in a single chip.

Problem papers

Project

Mobile computing, Data minning and warehousing

Design Engineering was interesting.

Data structures and Algorithms

I liked most of the papers I studied, I can't seem to point out one but PDC stands out as i felt that I understood it more on a more practical sense than theoretically.

CMBE, DLC, ANN, LACA

All Semester 4 subjects.

all

Programming

OS - Well taught and good tutorial sessions

DBMS - Well taught with live and practical exposure.

Networking Lab - Developed good knowledge in Java , Networking and Project.

TOC,CD - Very well taught.

CNS and PIS- Very interesting topic, gives wider knowledge security systems in computer

DMWH - A course with real life application and experimentation.

Mechanics and Engineering Graphics - Improves Critical Thinking and problem solving.

Data Structures, Graph Theory , DSA - In depth knowledge in computer programming and development of different approaches for problem solving in Software Development.

Cellular and molecular biology and genetics

Genetic Engineering

Bioprocess Engineering

Molecular Biology and Cellular Biology

I liked all the biomedical subjects like medical imaging techniques, therapeutic equipments, etc. because it gave me an understanding of my course.

Mathematics

MIT , Therapeutic Equipments Provides better understanding of hospital equipments

Aptitude

life science subjects and chemical engineering

Placement training.Because it helps the students to achieve their dream jobs.

Data structure. Liked it because it's interesting

vlsi

data structures

Fluid mechanics 1

GT2, QSV

Fluid mechanics,LACA ..these courses were best because of the way the teachers took the classes

Sustainable engineering

Structural Analysis , environmental engineering, transportation engineering

Personally, I have liked problematic subjects like mechanics, fluid mechanics.

Mechanics of Solids

Transportation

Transportation engeneering

Tcp

Icd

3 Gis workshop hand on training sec was the best. The trainers came were too good and they explained everything on point

Biomedical engineering, computer organisation, signals and systems, advanced electromagnetic theory

Python

Mems

Logic Circuit Design

Structural Analysis

SSD

Optical Communication

Secure Communication

Are you considering for higher studies right after your graduation or in future ? If yes, mention the course and the institute ?

245 responses

No

Yes

Nil

.

.

no

nil

None

NO

No

Yes, not yet decided

Not now

Yes.

No.

Yes.

-

Not decided

Yes.MTech Industrial Biotechnology, Abroad

Yes , MSC . Medical biotechnology

Nothing

Maybe, if yes Greenwich University, London

Planning to do phd in future

Yes, Abroad

No

Maybe in future. Interested towards management studies

Course will be related to AI or ROBOTICS

-

Yes , Master of Science

Right now I am not going for higher studies

Maybe

Nk

Ms

Construction Management.

I am more interested in Automation

Yes, M.tech in microbiology at IIT, Madras

Yes, Not decided what to learn or where to pursue my higher studies.

In future

Yes. Course and Institute not decided yet

May be

May be in future. NIT/IIT

Yes, University of Georgia Tech .

Yes, MS Molecular Biotechnology

Yes. M.Tech

I consider higher studies in future if I feel a need or interest to pursue higher studies.

Nop

Yes. Masters in Biotechnology

m s

Yes, mtech

Nik

In the future , for M.design

Maybe,

Yes, Mtech in structural and construction management

Not sure

Yes. Interior designing and softwares

..

Yes, M.des

Not yet decided

yes,mtech

IM CONSIDERING PHD RIGHT AFTER MY MTECH. AND IM PLANNING TO DO IT IN SCET,
KODAKARA.

Mtech

....

Yes

Yea

Yes, food science and biotechnology, teeside University

Yes. Masters in biotechnology

Yes,genetic engineering

Good

Not now , but making it happen only after 2 years experience

Good

Not decided yet

Now not

In the future yes, in Gaming development field

Yes, MS Advance Biotechnology

Yes. Masters in data science

Yes

Yes, Mtech in molecular biology or microbiology

NIL

Sometimes

May go for higher education in future abroad for Masters in Data science

Nil

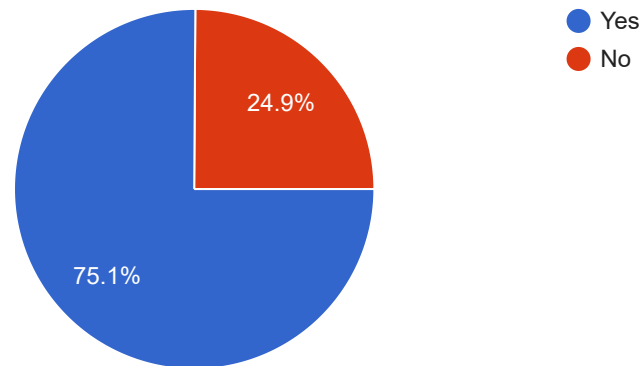

Yes, Biomechanics

Not planned yet
